

Weekly Weather Chart

Here is your chance to be a weather reporter for a whole week. Practice your weather signs and follow the steps below to start becoming a weather expert!

Directions:

1. Print off the weather chart and the pictures of the different kinds of weather on heavy paper.
2. Cut out all of the different weather squares.
3. Each day, look outside first thing in the morning to see what the sky looks like. Is it rainy? Windy? Sunny?
4. Choose the weather card that looks just like it does outside, and place it on the right day.
5. Sometimes the weather looks nice and sunny when you wake-up but later in the day, it gets windy and rainy. Make sure to change your weather square.
6. Have fun observing all of the wonderful things Mother Nature can do!
